EXAMINER 'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Marc S. Hanish on 10-25-04.

The application has been amended as follows:

In the claims:

Claims 19-22 have been canceled.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-9, the prior art fails to teach or suggest a method for initiating an IS-683 session with a mobile terminal over a wireless network having a web server, the method comprises the steps of routing the call to the web server of the wireless network to establish data-only session between the web server and the mobile terminal, and collecting information of the user from the mobile terminal with the web server via the data-only session, in the specific combinations of claim 1.

Regarding claims 10-18, and 23-28, the prior art fails to teach or suggest a system for establishing an IS-683 session with a mobile terminal over a wireless network configured with an IS-683 protocol, the system comprises a web server configured to receive the call from the router, establish a data session with the mobile terminal, request provisioning information from the mobile terminal, in the specific combinations of claims 10, and 23.

Regarding claims 29-45, the prior art fails to teach or suggest a method for establishing an IS-683 session between a mobile terminal and a web server, the method comprises the steps of creating a data-only network session between the mobile terminal and the web server by forwarding the call from the router to the web server, and receiving a request for provisioning information at the router from the web server via the data-only network session, the provisioning information regarding a user of the mobile terminal, in the specific combinations of claims 29, 37, and 45.

Regarding claim 46, the prior art fails to teach or suggest a method of a user to initiate a data only session with a mobile terminal over a wireless network configured with an IS-683 protocol and having a web server, the method comprises the steps of routing the call to the web server of the wireless network, collecting information of the user from the mobile terminal with the web server, wherein the step of routing comprises routing the call via a PSTN to the web server, in the specific combinations of claim 46.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
